Subject: RE: Samples taken in the RFI Area

Humane --

In response to your question regarding the 121 locations within the RFI area from which Cabot has taken samples -- specifically how many of those samples reflected residences - Cabot has informed me that all 121 represent residences. Cabot does have location information for most of those samples; the easiest way to get that to you is probably on the EDD chart Cabot is currently finalizing and will provide EPA in accordance with my February 24, 2012 letter. Please don't hesitate to contact me with any questions.

Thanks very much,

Lowell Rothschild, Senior Counsel
Bracewell & Giuliani LLP

Thank you, Lowell. To clarify, I also asked for more information generally about the locations of the referenced 121 samples. Thanks. Humane

Humane –

Sorry for the delay; I'm still tracking down the answer to your question of how many individual residences are encompassed in the 121 samples Cabot has taken in the RFI area.

My apologies,
